

PhysIOL announces full ownership of Optikon

LIEGE, BELGIUM, Oct. 26, 2017

After having announced in Sept-17 the acquisition of a majority stake in the Italian company Optikon, PhysIOL announces today that it has completed the acquisition of the minority shares, leading to an ownership of 100% of Optikon.

About PhysIOL

PhysIOL is a Belgian medical device company that develops, manufactures and markets a complete range of intraocular lenses in the field of ophthalmology. PhysIOL has been rapidly expanding through innovative products like the FineVision Trifocal IOL. More information on www.physiol.eu

About Optikon

Optikon is a Rome (Italy) based company specialized in ophthalmology, with the mission to develop, manufacture and market innovative equipment globally. More information on www.optikon.com
